DETAILED ACTION

- This action is responsive to the following communication: Pre-Appeal Conference Review request filed on 11/23/05.

Response to Arguments

Applicant's arguments, see pages 2-5, filed 11/23/05, with respect to claims 1 & 10 have been fully considered and are persuasive. The prior art rejection of claims 1 & 10 has been withdrawn.

Allowable Subject Matter

Claims 1, 4-8, 10, 12-14 are allowable over prior art of record; renumbered as claims 1-10.

The following is an examiner's statement of reasons for allowance: The cited prior art (US 5270775 to Suzuki) of record teaches a method for collecting management data (i.e. number of copies printed), but the prior art of record fails to teach and/or suggest "early message date setting means for transmitting the early message date, calculated by calculation means, to the data communication device via the network, so that the calculated early message date is set in the data communication device as argued on pages 2-5, filed on 11/23/05 and in combinations of other features" as cited in independent claims 1 & 10. The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1 & 10.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thierry L. Pham whose telephone number is (571) 272-7439. The examiner can normally be reached on M-F (9:30 AM - 6:00 PM).
